

APPS Inc. AccuSure

The AccuSure is a count accuracy assurance system for slat fillers. Counting all types of pharmaceutical and nutraceutical products. The AccuSure scans the product in free falling path between the slats and the bottle chute. The AccuSure checks for both over-count and undercount rejecting any bottle that is in error.

15" AccuSure with bottles in place.

Sizes:

The family of sizes covers a wide range. There are 4 sizes, 15" - 6 bottles, 19" - 8 bottles, 29" - 12 bottles & 42" - 18 bottles.

15" AccuSure for filling 6 bottles.

For a 15" slat filler we have the AccuSure-6, which has the capability for a six bottle stick, and we have a product for a 42" slat filler, the AccuSure-18, which has the capability for an eighteen bottle stick.

42" AccuSure for filling 18 bottles

The entire range of sizes is shown below. There is a size that will fit your existing slat filler.
